

ANKUSH KUMAR

FULL-STACK DEVELOPER

Jalandhar, Punjab | +91 90531 07291 | ankush3985kvponda@gmail.com
LinkedIn: [linkedin.com/in/ankushkumar](https://www.linkedin.com/in/ankushkumar) | GitHub: github.com/ankushkumar145

◆ PROFILE

Computer Science and Engineering student building full-stack and backend applications with JavaScript, Node.js, Express.js, React.js, and MongoDB. Project work includes a command-line crowd-management tool and an AI-based institutional performance evaluation system, with experience in API development, authentication, data structures, and deployment workflows.

🔧 TECHNICAL SKILLS

LANGUAGES Python · Java · JavaScript · PHP · C · C++

WEB & BACKEND HTML5 · CSS · React.js · Node.js · Express.js · REST APIs · Socket.io · Spring Boot

TOOLS & PLATFORMS Git · GitHub · Vercel · Multer · Render · Postman

CORE STRENGTHS Problem analysis · Critical thinking · Logical decision-making · Problem-solving

🔗 SELECTED PROJECTS

SLAY-AI-Powered Dating Assistant | Nov 2025 – Jan 2026

Node.js · Tailwind CSS · Vite · REST API

- Architected a scalable backend system using Laravel and REST APIs, implementing secure authentication, profile management, protected routes, and seamless cross-platform client communication.
- Engineered database-driven services with schema migrations, ORM relationships, request validation, and optimized CRUD operations, ensuring reliable data integrity and high-performance API responses.
- Integrated Groq AI services for attraction analysis, bio optimization, and real-time conversational assistance, delivering personalized user insights through dynamic backend processing.

Repository: <https://github.com/ankushkumar145>

AI-Based Institutional Performance Evaluation System | Oct 2025 – Nov 2025

Node.js · Express.js · MongoDB · JWT · RBAC · Mongoose

- authentication and authorization using **JSON Web Token** and **bcrypt**, enabling role-based access control, encrypted credential storage, and protected API endpoints with centralized error handling.
- Deeloped an AI-powered scoring engine that analyzed approvals, compliance, infrastructure, and faculty metrics to generate **0–100 performance scores**, risk classifications, historical trend insights, and automated recommendation reports for institutional decision-making.
- Optimised AI scoring workflows to evaluate compliance, approvals, faculty, and infrastructure data, generating automated risk analysis and actionable insights.

Repository: <https://github.com/ankushkumar145>

ConvertX – Video Conversion Platform |

Next.js, React, Node.js, Express, TypeScript, Redis, BullMQ, FFmpeg, Backblaze B2

- Developed a full-stack video conversion platform supporting multiple formats, including MP4, AVI, MOV, and MKV, with an intuitive drag-and-drop upload interface.
- Implemented asynchronous video processing using **BullMQ and Redis**, enabling background conversion jobs and real-time progress tracking without blocking user interactions.
- Integrated **Backblaze B2 object storage** and time-limited signed URLs for scalable file storage, secure downloads, and automated temporary-file cleanup.

📁 TRAINING

MERN Stack Internship | Emertxe / WebStack Academy | Dec 2025 – Present

Working across MongoDB, Express.js, React.js, and Node.js, including APIs, authentication, deployment workflows, cloud services, and backend architecture.

Programming and Data Structures Training | Lovely Professional University | Jul 2025 – Aug 2025

Practiced C, C++, and Python; implemented arrays, linked lists, stacks, queues, trees, and graphs; strengthened logic-building, debugging, and code optimization.

💎 CERTIFICATIONS & ACTIVITIES

Cloud Computing | NPTEL | Sep 2025

Linux Operating System | Udemy | Oct 2024

Introduction to Hardware and Operating System | Coursera | Aug 2024

Digital Systems: Logic Gates to Processors | Universitat Autònoma de Barcelona (UAB) | Mar 2024

- NCC Cadet: participated in drills, field training, and military exposure programmes.
- Hackathons: contributed to UI/UX design, team problem-solving, and integrating CI/CD pipelines into functional prototypes.

📖 EDUCATION

Lovely Professional University | B.Tech, Computer Science and Engineering · CGPA: 6.7 | Phagwara, Punjab | Aug 2023 – Present

Kendriya Vidyalaya Ponda | Ponda, Goa | Intermediate | Apr 2021 – Mar 2022

Kendriya Vidyalaya Ponda | Ponda, Goa | Matriculation | Apr 2019 – Mar 2020
