Projects

Inventory Management System | *React.js, Tailwind CSS, Vite, REST API*

Jan 2026 – Mar 2026

- Developed a responsive inventory management web application for tracking, managing, and optimizing product stock in real time.
- Built interactive **React-based UI** with product **CRUD operations**, dashboard analytics, authentication-ready login, and feedback module.
- Integrated REST APIs using **Axios** for seamless communication with backend services and real-time data updates.
- Applied modular frontend architecture, state management, and clean UI/UX principles for scalable application development.
- Github Repository Link: <https://github.com/ankushkumar145/IMS-MANAGEMENT>

SLAY-AI-Powered Dating Assistant | *Laravel, React Native, REST API, SQLite*

Apr 2026 – May 2026

- Architected a scalable backend system using Laravel and REST APIs, implementing secure authentication, profile management, protected routes, and seamless cross-platform client communication.
- Engineered database-driven services with schema migrations, ORM relationships, request validation, and optimized CRUD operations, ensuring reliable data integrity and high-performance API responses.
- Integrated Groq AI services for attraction analysis, bio optimization, and real-time conversational assistance, delivering personalized user insights through dynamic backend processing.
- Github Repository Link: <https://github.com/ankushkumar145/slay>

Training

Programming and Data Structures | *Lovely Professional University*

Jul 2025 - Sep 2025

- Strengthened core programming, logical reasoning, and problem-solving skills through intensive hands-on training.
- Implemented fundamental **Data Structures and Algorithms** including arrays, linked lists, stacks, queues, trees, and graphs using **C, C++, and Python**.
- Enhanced algorithmic thinking, debugging, code optimization, and competitive programming efficiency through practical assignments and coding challenges.
- Tech Stacks Used: C, C++, Java, Data Structures and Algorithms, Problem Solving, Debugging, Code Optimization.

Certificates

Build Generative AI Apps

Aug 2024

Udemy — [Certificate Link](#)

Linux for Developers

Sept 2023

Udemy — [Certificate Link](#)

Technical Skills

Languages: Python, Java, JavaScript, PHP

Technologies/Frameworks: HTML5, CSS, React.js, Node.js, Express.js, REST APIs, Socket.io, Springboot

Skills: Data Structures and Algorithms, Problem-Solving, Responsive Web Design, Scripting in Python and JavaScript

Education

Lovely Professional University

Phagwara, Punjab

Computer Science and Engineering — CGPA: 6.50

Aug'23 - Present

Kendriya Vidyalaya Ponda Goa

Ponda, Goa

Intermediate with PCM: Percentage: 76

Apr'2021-May'2022

Kendriya Vidyalaya Ponda Goa

Ponda, Goa

Matriculation Percentage: 75%

Apr'2019-Apr'2020
